Dear Ms Zanetti,

Two permits have been issued, for 6 antennas each, at **1050 Burnaby** .

Both were issued in **1998**, the first in February and the second in August.

I assume the antennas were erected shortly after those dates.

The permits were taken out by contractors and do not have the cell phone companies name listed on the permits..

If you want to get more permit information on different addresses I would recommend that you come in to the Enquiry Centre to do that research. If you wish to email me with individual addresses I will try to respond but it may take up to a week for each enquiry.

Mr. Adair,

You advised me and many others that you would be of assistance. I do not see why you cannot provide the particulars on 1150 Burnaby .

I am not interested in other addresses right now.

Please advise as to when the antennas at **1150 Burnaby Street** in the West End were installed and when they were erected and whose installation is it with?

I await your immediate response.

Tina Zanetti

Dear Ms Zanetti,

If you wish to do research on installations at various addresses, the best thing would be to bring in a list in to the Enquiry Centre, Second Floor, East Wing, City Hall.

Counter staff there will be able to get the information for you.
