Re : BC Hydro - Excavation Work

Please be informed that BC Hydro will be undertaking an underground construction work in the back lane of the building.

The construction activity will involve the digging of the lane for the installation of the necessary underground ducts and service box in preparation for the electrical service upgrade to the building.

The construction activities will commence on:

Start of Work: September 3, 2008: 6:30 AM to 4:30 PM
End of Work: September 8, 2008: 6:30 AM to 4:30 PM

Please take note that the parking spaces 1,2,3,4,5,6,7,8,9,10,& 11, adjacent to the lane will be greatly affected during the construction. Please avoid using these parking spaces during the entire construction period.

The access to the other parking spaces will remain open but the users will have some inconvenience when entering and leaving the parking lot.

Thank you for your attention and cooperation in this matter.

Yours truly,

Bonniehon Management

Joel Miranda

Building Manager
